

INSTRUCTIONS

Carefully Read, understand, and follow all instructions and warnings including on-product warning labels.

SET-UP INSTRUCTIONS

Assemble and Disassemble by Adult Only

A. Inflatable Raft Instructions:

1. Inflate each chamber in numbered sequence slowly with a foot or manually operated air pump. Make sure the structure is firm to the touch. **CAUTION:** To prevent bursting, do not over inflate or use high pressure air compressor.
2. Close and recess all inflation valves securely as necessary.
3. For storage, reverse the set up procedures. Clean and air dry thoroughly before storage. Store in a dry place and indoors.

B. Anchor Weight Instructions (Certain Models): (The anchor weight may not prevent the product from moving during play, windy and gusty days.)

1. Place the inflated raft on the water.
2. Thread rope through the grommets on the anchor bag.
3. Fill the anchor bag with pebbles or other similar small stones worn smooth of about 1 to 2 inches (2.54 to 5 cm) in size or diameter. The anchor bag holds about 6 - 13 lbs (3 - 6 kg) of dead weight. **IMPORTANT:** Never use rough stones or stones with sharp edges or corners, as they may cause serious injury.
4. DO NOT exceed the recommended weight of 6 - 13 lbs (3 - 6 kg).
5. Sand and other fine particles are not recommended as dead weight. They may fall or spill out easily from the bag.
6. Close the anchor bag by pulling the rope tightly and then tie a knot to secure closure.
7. Slowly lower the anchor bag into the water until the bag is resting on the bottom. Do not drop the bag suddenly or throw the bag as it may cause damage to the anchor bag or cause injury.
8. Tie the free end of the rope to the rope holder located on the side of the raft. The rope must be taut and the inflatable raft should be floating parallel to the water surface.
9. If used in pool, place the raft in such a way that it will not cause an obstruction or become a trip hazard to the pool user.
10. For storage, reverse the set-up procedures. Clean and air dry thoroughly before storage. Store in a dry place and indoors.

C. Ladder Instructions:

1. Tie and secure the free ends of the ladder to the eyelets located on the side of the inflatable device.
2. Never wrap ropes or ladder around head or any other body part.
3. Stay clear of the ladder when not in use as entanglement may occur. **IMPORTANT:** Check water safety rules on the back.

D. Boston Valve:

1. Double valve cap (valve lets air in; not out).
2. Quick deflation cap.
3. Unscrew Double Valve cap.
4. Insert output end of air pump into valve and fill. Do not over inflate or use high pressure compressor.
5. To deflate: Unscrew quick-deflation cap. **CAUTION:** Double-Valve does not operate when this cap is off. Do not unscrew this cap while product is in water.

WATER SAFETY RULES WHEN USING FLOATING ISLAND

Water recreation is fun, but involves some inherent risks of injury and death. To reduce your risk of injury, read, and follow all product, package and package insert warnings and instructions and familiarize yourself with the following guidelines as well as guidelines provided by nationally recognized Safety Organizations.

WARNINGS

THIS IS NOT A LIFE SAVING DEVICE. FOR ADULTS USE ONLY. NEVER ALLOW DIVING OR JUMPING ONTO OR FROM THIS PRODUCT. NEVER TOW FROM ANY VEHICLE. SHOULD WEAR PERSONAL FLOTATION DEVICES (PFDs). POOL USE ONLY. DO NOT WRAP ROPES OR LADDER AROUND ANY PART OF THE BODY. NOT TO BE USED WHILE CONSUMING OR UNDER THE INFLUENCE OF ALCOHOL OR DRUGS. NEVER LEAVE IN OR NEAR THE WATER WHEN NOT IN USE. SEE PACKAGE INSERT FOR ADDITIONAL WARNINGS. FOLLOW THESE RULES TO AVOID ENTANGLEMENT, DROWNING, PARALYSIS OR OTHER SERIOUS INJURY.

SAFETY GUIDELINES

- Learn to Swim.
- Know the waterways.
- Do not use in high wind, rapid currents, open water or dangerous tides.
- Observe and abide by all local water safety regulations.
- Be sure the area is well supervised by lifeguards or competent supervisors before you or others in your group enter the water.
- Always stay close to the shore or dry land. Ensure that you can reach the shore or dry land easily.
- Always inspect the area around and beneath the product to ensure that the water is free of rocks, logs, sand bars or other obstructions.
- Stay away from sharp objects and boats.
- Never use when tired or fatigued.
- Use this product **ONLY ON WATER**.

Not following these guidelines may result in drowning or other serious injury.

The product warnings, instructions, and safety rules provided with the product represent some common risks of using water recreation devices and do not cover all instances of risk and or danger. Please use common sense and good judgment when enjoying any water activity.
